Survey for: Silver Point Resorts, A Tennessee Limited Partnership

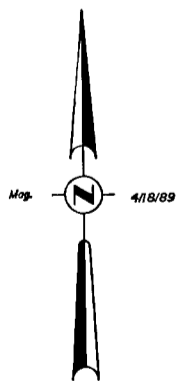

Statement of Procedure and Precision

This survey was conducted in April - June, 1989, with the aid of a Leica, Set-3, 5-second Total Station, Electronic Instrument. The unadjusted ratio of closure is certified to be more precise than one part in 2,500 (1:2,500). The linear and angular error of closure meet the Tennessee State Requirements of a Class 'D', Farm Land Survey.

I hereby certify that this survey has been made using the latest recorded deed, that there are no encroachments or projections other than those shown, and that the survey is correct to the best of my knowledge and belief.
